

Clouds (working title)

Pio Rahner

Pio Rahner (born in Offenburg, lives and works in Bremen). Pio Rahner's works oscillate between conceptual photography and installation-sculpture. One of the main focuses of his artistic work is on the one hand the concentration on the specific object and on the other hand in the realization/production and the positioning of the object in its surroundings. At BB15 he is preparing a new series which accounts the architecture of the issue. Some kind of protection and coziness are in the focus of that new artwork.
